SOLARVIEW
DESIGN & INSTALLATION, LLC

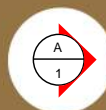

Custom Exterior & Interior Sun Control

About Us

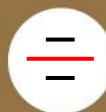

Solarview Design & Installation offers custom window treatments including aluminum, wood, faux wood, blinds. Along with interior/exterior roller shades, and shutters. All designed to fit the needs of our discerning customers.

We service projects of all sizes from single residential to multifamily and commercial jobs. Our experienced team can meet just about any architectural specification. We are the experts on all of your motorization and home automation needs for window treatments.

From design to installation, we take pride in offering quality products as well as "worry-free" professional installation and workmanship.

Knowledgeable and friendly professionals at SolarView will coordinate your decorating project from start to finish.

Products include: horizontal blinds, faux wood blinds, verticals, roller shades, natural shades, and shutters

Our professional installers will provide you with worry-free measuring and installation services.

Shading and AV Solutions for Home

■ *Transform your home into a uniquely beautiful retreat – indoors or out – with the simple elegance of Draper@Home custom shades.*

DRAPER@HOME: INDOOR MOTORIZED FLEXSHADE®

Motorized FlexShade® - AC

Draper® AC hardwired motorized shades are UL listed, so you can be sure of years of safe, reliable performance. Traditional, Smart, and Radio Technology Somfy® motors feature a wide array of external control options.

Motorized FlexShade® - Low Voltage

Low voltage window shades are quiet, consume less power, and require less wiring by an electrician. They are easy to integrate with home automation or lighting systems, ensuring your shades are always where they need to be and provide you with long-term, worry-free performance.

Motorized FlexShade® - Rechargeable

Rechargeable battery-powered window shades offer the convenience of motorization without the hassle of hardwiring and electricians. Choose from two battery options: a re-loadable battery wand, or a rechargeable Li-ion battery.

Outdoor shades

Comfortable outdoor spaces are more important than ever. Draper@Home Shades can expand homes' usable square footage without costly additions.

- **FlexShade ZIP** uses a unique “zipper” detail on both vertical fabric edges to retain the shade in the side channels.
- **Exterior FlexShade** features cable guides to keep shade in place.
- **Custom:** Not every challenge has a standard solution. Draper designs and manufactures tailored shading systems to fit any unique need.

Foundation Mount System

Video Wall Mounts & Structures

Are you looking for a truly huge flat panel TV experience at home? Our range of audiovisual mounts & structures offers solutions for virtually any LED manufacturer to create a big, breathtaking display. Working closely with leading LED makers like Sony, Samsung, Planar, Christie, Barco, Absen, Unilumin, and others, we have developed the **Foundation® Mount System**. We offer the keys to dvLED video wall installation success and homeowner satisfaction: durable mounting hardware with extreme alignment precision and design simplicity.

Projector Lifts

Conceal and protect your projector above the ceiling until showtime with a **Draper AeroLift projector lift**. When it's time for the show, lower your projector into the perfect position at the touch of a button. These small lifts are perfect for home theater applications. Each AeroLift model varies in vertical extension length and maximum lifting capacity and features a stabilizing arm for cable management.

SHUTTERS

WOOD AND COMPOSITE

Wood and composite shutters—
appropriate for any room, impeccable
for any style.

SAVOR

NATURAL WARMTH

Authentic materials and rich stains create a welcoming atmosphere.

REMARKABLE QUALITY

The warm, natural materials draw you in; the superior craftsmanship satisfies you for a lifetime. Graber Wood Shutters are a regal, energy-efficient finishing touch to a room's décor. Our shutters are created with extraordinary care, for exceptional style. Each individual shutter shows the unique grains and patterns distinct to the wood it was borne from, imparting a sense of authenticity. A wide assortment of options, upgrades, and custom colors allow you to design a custom look that expresses your style.

Made from responsibly harvested North American hardwoods and dried and molded with personal care and attention in our Grayling, Michigan plant, these shutters are a true investment in style and quality.

CUSTOMIZE WITH COLOR

Graber has colors in a wide variety of paint and stain choices to allow your shutters to complement your existing décor. Plus, we offer a custom color program that offers numerous opportunity for color matching and personalization.

- ▲ 3 1/2" Wood Shutter with Signature Z-Frame and Hide-a-Tilt™ control: Custom Color; Back Tab Drapery: Penna, Dusk 4460
- ◀ 3 1/2" Wood Shutter with Signature Z-Frame: Saddle Brown 1694

ACCENTUATE DISTINCTIVE FEATURES

A French door. A patio slider. An arched transom. The architectural statement of an angled window. Graber understands that your space is unique, with singular needs. We offer a variety of special shutter styles to accentuate the individual touches that make your home exceptional.

BYPASS PANELS

Individual or paired panels slide past each other to reveal the outside view, making this option perfect for patio doors.

BI-FOLD

An ideal choice for larger windows or sliding glass doors; panels are hinged in the middle and fold accordion-style.

FRENCH DOOR CUT-OUTS

Curved or rectangular cut-out options beautifully complement contemporary door handles or traditional door knobs.

CUSTOM ARCHES

Windows can be accented with a custom arch. Choose from perfect, eyebrow, elongated, elliptical, or Palladian, with or without decorative frames.

CAFÉ PANELS

Classic style covers the bottom part of the window, allowing light to enter above while maintaining privacy.

ARCHED OR ANGLED PANELS

Arched panels fit the rounded shape of full arch windows perfectly, while angled panels accommodate slanting windows.

3 1/2" Wood Arched Panel Shutter with Standard L-Frame: Base White 1051 ▲

3 1/2" Wood French Door Shutters with Colonial L-Frame, Rectangular Cutout, and Hide-a-Tilt control: Walnut 1012 ►

EMPHASIZE

EXCLUSIVE DESIGN ELEMENTS

Highlight the features that make your space unique with Graber Specialty Shutters.

EXHIBIT

VERSATILITY AND DURABILITY

Graber Composite Shutters bring the classic beauty of shutters to rooms that require a particularly durable solution.

DEPENDABLE AND AFFORDABLE

Kitchens and bathrooms are high-humidity areas that require special consideration when choosing window coverings. Graber Composite Shutters are an ideal solution.

Made of high-caliber polymers designed to withstand moisture, composite shutters won't fade, crack, or peel. Plus, they offer the same refined appearance as our wood shutters at an affordable price. Choose from an assortment of popular neutral colors. With a wide assortment of other options and upgrades, Graber Composite Shutters will enhance your home for years to come.

BYPASS PANELS

Panels slide on a horizontal track and stack neatly behind one another. Bypass panels are an optimal choice for patio doors.

FRENCH DOOR CUT-OUTS

Curved or rectangular cut-out options beautifully complement contemporary door handles or traditional door knobs.

CUSTOM ARCHES

Create a coordinated look by pairing arches with standard shutter frames throughout the home. Framed or frameless options fit any window or decorating style.

ARCHED OR ANGLED PANELS

Arched panels fit the rounded shape of full arch windows perfectly, while angled panels accommodate slanting windows.

▲ 2 1/2" Composite Café Shutters with Standard L-Frame: Silk White 2922

◀ 3 1/2" Composite Shutters with Hang Strip, Divider Rail and Double Mouse Hole: Silk White 2922

BEAUTY IS IN THE DETAILS

A dramatic wide louver. The sleek modernity of a hidden tilt bar. An unobstructed view to a beautifully landscaped yard. Once you've chosen a shutter style and color, truly complete your look with our louver and control options.

2 1/2" LOUVERS
The perfect way to bring a classic touch to your shutters and complement the scale of smaller windows.

3 1/2" LOUVERS
Increase your view to the outdoors, as well as your design versatility, by choosing these mid-size louvers.

4 1/2" LOUVERS
Ideally proportioned for grand-scale windows, 4 1/2" louvers provide the best view to the outside when open.

STANDARD TILT
Enjoy simple shutter operation with the standard tilt bar, and admire the traditional design it imparts.

HIDE-A-TILT™
The unique design of our hidden tilt bar, placed on the back of the shutter panel, provides a sleek look and a clear view to the outside when louvers are open. It also makes cleaning easier than ever.

SPLIT TILT
Bask in the glow that open shutters provide, while still maintaining privacy. Choose split tilt for top and bottom portions that can open and close independently.

AN ELEGANT FINISH

Fine tune your design with hinges in a choice of metal finishes, frame options, and other detailed touches.

L-FRAMES
To highlight your shutters with a sleek outside-mount frame, choose an L-frame style.

DECO FRAMES
An outside mount similar to the L-frame, deco frames offer more intricate architectural detail.

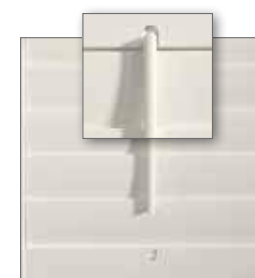

Z-FRAMES
An inside-mount application that frames your shutter panels.

ASTRAGALS
Select the astragal option for an attractive alternative to rabbeted panels (standard on all two-panel configurations). Decorative detailing blocks the gap between panels for improved privacy and light control.

DIVIDER RAIL
To let the light in while still preserving privacy, a divider rail is the perfect option. Divider rails add architectural interest while allowing the upper and lower half of each shutter to operate independently. On tall windows, divider rails provide structural support and are automatically included.

DOUBLE MOUSE HOLE
The double mouse hole option allows you to close the louvers by pushing the tilt bar up or down into either of the decorative cut-outs in the shutter panel. (Single mouse hole is standard. Double mouse hole shutters will have tighter closure in the up position.)

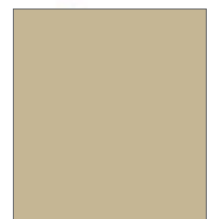

HINGES
Hinges are available in six finishes to provide a beautiful accent to a wide array of paints or stains.
